## Raising of the Warragamba Dam

As a grandmother and as someone who cares about our heritage as well as the environment, I am extremely concerned with the permanent detrimental environmental effect the raising of the Warragamba Dam will have.

The Greater Blue Mountains area is heritage listed for its biodiversity and rare flora such as eucalypts, Wollemi pine as well as Indigenous historical sites.

I want my grandson and his grandchildren to be able to inherit a world that is not completely bereft of all the wonderful beauty that I have had the good fortune to enjoy.

I urge you to also think of your grandchildren and the world you want to leave them.

Yours sincerely  
Frennie Beytagh (Ms)
