Confidential

I have lived in canter bury for over 30 years and believe our suburb is one of the worst in the inner west for facilities, infrastructure, and enjoyable way of life we have been neglected for long enough, The labor party have had a strong hold on this council for to long and have no idea what we need we need the metro to push through, development to push on and create new dwellings for our future children, create jobs in the area, create eateries for the locals to enjoy, create a town centre for us the locals to be the envy of all other suburbs. We have parkland that you cant get to easily, we have water ways , that are hardly looked after. What we need is the state to take owner ship and lead the bankstown council down the correct path with the new metro coming in we have an opportunity begging to be taken so lets all pull together and thank the state for this opportunity to create a great Canterbury.
