Portfolio Committee No. 6 - Transport and Customer Service  
Sydenham – Bankstown Line Conversion Inquiry  
Parliament House  
Macquarie Street  
Sydney NSW 2000

Dear Portfolio Committee No. 6 - Transport and Customer Service:

I oppose the downgrading of the T3 Bankstown Line including the Metro Southwest project between Sydenham and Bankstown.

It is important for the Inquiry to be aware that the downgrading of the T3 Bankstown Line has severe consequences on communities from the Inner West to South West Sydney.

Metro Southwest contains a significant number of issues such as:

- More cost effective and less disruptive alternatives have been ignored including signaling upgrades for the Sydney Trains network that delivers a higher frequency of service (train every 3 minutes) compared to Sydney Metro (train every 4 minutes) for T3 Bankstown Line
- A lack of empirical evidence supporting the need to downgrade the T3 Bankstown Line, especially as the NSW Government's Sydney Rail Future plan states that the "Western and North Shore Line" are the key bottlenecks (not Bankstown)
- Most commuters being forced to stand for long distances with Sydney Metro having 70% less seats compared to the existing comfortable double-deck Sydney Trains service. This is particularly important for us retired people
- The loss of drivers and guards on trains resulting in delays and slower response times to emergency incidents
- The downgrading of the T3 Bankstown Line in being used as a gateway for privatisation of infrastructure, significant over-development and severe destruction of heritage suburbs
- The NSW Government acting against the spirit of the GIPA Act by using freedom of information as a revenue raising mechanism to increase barriers in accessing information
- 100,000 commuters every day being forced onto crowded bus services during the downgrading of the T3 Bankstown Line (construction of Metro)
- Permanent disconnection from the City Circle (Town Hall, Wynyard, Circular Quay, St James, Museum) and the Inner West (St Peters, Erskineville, Redfern)
- 9 stations west of Bankstown lose all trains to City, forcing 19,000 commuters to interchange twice (Bankstown then Sydenham or Central), having suffered the loss of the Inner West Line (City to Liverpool [& Bankstown loop] via Regents Park)
- The lack of detailed information provided generally and the lack of consultation with all communities impacted especially west of Bankstown (e.g. Cumberland LGA)

- The NSW Government's regular attempts to mislead the public and media into believing that the entire T3 Bankstown Line is being converted into Sydney Metro by making referrals to the project as an "upgrade of the Bankstown Line" and also without always specifying "between Sydenham to Bankstown" in an attempt to cover-up the impact on non-Metro stations (i.e. west of Bankstown and east of Sydenham)

I urge the committee to review these concerns and to stop the downgrading of the T3 Bankstown Line in order to protect the surrounding communities from over-development. Thank you for your attention. I consent to the full publication of this submission.

Yours Sincerely,
