As the world changes its views on what humans are entitled to inflict on an animal what it means to be a farmer must also change. If there is nothing to hide there is nothing to see. I have not seen activists going into peoples homes. They go into sheds to expose what goes on their. The stench of those places is enough to ensure they are no where near a family home. There is no right to create a right to torture with a so called . 'Right to Farm' bill. This is a Trojan bill aiming to feebly hold back the tide of rising public disgust
