**INQUIRY INTO PROVISIONS OF THE RIGHT TO FARM
BILL 2019**

Name: Mr Thomas Port
Date Received: 27 September 2019

Australia has lost so much manufacturing to countries with cheaper labour. There are employment (taxpayers) opportunities in the farming sector. The Riverina was once described as the food bowl of Australia and Australia was referred to as the food bowl of the World. Where did these days go to ?

Australia was noted for being clean and green - mind you - live export smeared this reputation somewhat.

If we don't have a strong farming sector - what do we have ? An industry confined to money shifters and bean counters in the cities - and of course a strong legal profession to keep us on the straight and narrow.

And, of course, Government.

I prefer my meat, fruit & veg to come from growing conditions I know and can trust. Ask yourself , if the Australian Farming Sector goes - what will replace it ? Oh yes - we will still have the great brand names (like we still do in the clothing sector) - but will the food be the same standard ?

As far as the vigilantes go - treat them as outlaws and trespassers - as they surely are.
