

**INQUIRY INTO PROVISIONS OF THE RIGHT TO FARM
BILL 2019**

No human has a “right to farm” animals for meat. They are sentient beings with feelings and emotions just like humans. If humans insist on raising animals for meat, the animals, in the very least, deserve to be treated humanely. NO human should be punished, or fear being punished for speaking out against animal cruelty. The consideration of this bill is a sign of a piss weak politician who is giving in to either fear mongering or a large “donation” from a particular party. And you obviously have no heart or soul or consideration for any being in this planet other than you’re own.
