No 29**

**INQUIRY INTO URANIUM MINING AND NUCLEAR  
FACILITIES (PROHIBITIONS) REPEAL BILL 2019**

**Name:** Ms Sabena Winston

**Date Received:** 28 September 2019

---

Please lodge my serious objection to legalizing uranium mining and establishment of nuclear facilities.

As we know the the waste product from uranium mining is forever hazardous and nuclear facilities have inherent dangers to all living things.

The risks to life are far too serious to use uranium.

Please put equivalent funding into renewables.
