Partially  
Confidential

I will keep it short and simple. Do you think that cruelty to animals means keeping the population ignorant? I fail to see how this type of abuse to animals means that if it is exposed to society in general means that those who expose it are penalised? You have already proven that you don't care and that cruelty is acceptable and a right to those that farm in this way! Exposure exposure exposure - why are you so invested in keeping the secrets?
