**INQUIRY INTO PROVISIONS OF THE RIGHT TO FARM  
BILL 2019**

I believe that this right to farm bill is just saying it is right to conduct business anyway we want without having to answer to any laws or public scrutiny. And no one industry should be above scrutiny. Taking away the public's right to know what exactly happens behind close doors by punishing the whistleblowers gives corporations power that no one should have in a civil society. This bill is saying we can abuse animals and the environment and if you try and stop us you will be punished.
