BILL 2019**

I do not support this bill.

This legislation is targeting whistleblowers, animal advocates, peaceful protesters, and neighbouring property owners to animal agribusiness industries.

It limits consumer rights to know how their products are produced and prevents consumers from gaining access to basic unbiased information which is needed to make an informed decision

It also limits the ability of individuals to protest and express their right to speak nonviolently against organisations, enterprises and practices that they feel is unnecessary and unjust
