**INQUIRY INTO PROVISIONS OF THE RIGHT TO FARM  
BILL 2019**

Thank you for considering my submission.

I am not against eating meat but I am against tormenting animals to create the product for market.

The agribusiness industry tends to treat animals as cogs in a machine without regard for their physical or emotional suffering.

Better conditions would certainly be more expensive but then the industry could be open and transparent.

The "Right to Farm" is giving a right to secrecy and cruelty under cover.
