**INQUIRY INTO PROVISIONS OF THE RIGHT TO FARM
BILL 2019**

Name: Ms Julie Power
Date Received: 30 September 2019

Please see the documentary *Dominion* for evidence of what whistle blowers have exposed in the agriculture industry.

Whistle blowing is a legitimate and powerful means of raising concern, corruption and in the case of industries involving animals, cruelty. This legislation seeks to prevent people from exposing cruel practices and the mistreatment of animals.

The parliament may consider introducing cameras in animal facilities including slaughterhouses, so there is transparency, and people won't feel compelled to expose the practices.
