**INQUIRY INTO PROVISIONS OF THE RIGHT TO FARM
BILL 2019**

Name: Mr Allan Sambell
Date Received: 30 September 2019

Having been a landholder prior to my retirement and moving to a local town for health reasons I can fully understand the public nuisance created by these uneducated buffoons raiding private property and attempting to disrupt a farming operation. They are obviously unaware of the realities of farming operations and are not interested in finding out the facts. Further to this they are trespassing by entering private property. The removal of any property which they seem to regard as o/k is stealing. Both of these actions are clearly against even our current laws. I have not seen one of these misinformed FOOLS offering a solution to what they see as so wrong. It does not surprise me that greens would tend to allow things to stay as they are as I have never seen them offer a practical solution to ANYTHING. Go your hardest folks and tighten things up as much as you can to protect hard working folk on the land or we may end up importing all our food. It is MY CHOICE if I wish to consume meat and my right to do so!!!! Kind regards, Allan Sambell
