**INQUIRY INTO MODERN SLAVERY ACT 2018 AND
ASSOCIATED MATTERS**

Name: Mr John Secker

Date Received: 4 October 2019

With the NSW Parliament having freely passed world leading anti-slavery legislation I find it simply incomprehensible that the legislative process now seems to at best being used to delay the implementation in NSW of this fundamental human right and at worst seeking to wind back some or all of the protections which the legislation embodies. As I citizen of this land where we exult in being "young and free" I find it, hypocritical to say the least, that our political processes are now seeking to delay, maybe even deny, this fundamental human right to those in less fortunate circumstances.
