

**INQUIRY INTO URANIUM MINING AND NUCLEAR
FACILITIES (PROHIBITIONS) REPEAL BILL 2019**

Name: Name suppressed

Date Received: 18 October 2019

Partially
Confidential

I am expert in electric power systems and in particular, Distributed Power and high voltage engineering. I hold high level qualifications including Adjunct Professorship. Generation IV Small Modular Reactors are a perfect fit into a low carbon multi faceted electric power grid which will see a reduction in cost and increase in reliability. I support submissions made by Professors from UNSW Sydney and I am willing to supply further supportive information.

Yours Faithfully
