**INQUIRY INTO EXHIBITION OF EXOTIC ANIMALS IN
CIRCUSES AND EXHIBITION OF CETACEANS IN NEW
SOUTH WALES**

Name: Miss Traudy Glasencnik

Date Received: 8 November 2019

To the animal entertainment inquiry.

How sad that I must write to you along with many of the public on what not only is viewed as an outdated human intelligence and as a cruel and unforgiving profiteering business driven by human greed, only to exploit animals in the name of species superiority. Absolutely disgusting and the lowest of low legal human behavior.

Animals in entertainment are subjected to painful, debilitating force in the name of training, incarceration, loss of their natural freedoms and habitats, not to mention the psychological torment and damage that occurs from such treatment, all this suffering for humans to watch an animal behave in unnatural ways, ridiculous! environment behaving as they naturally would. If humans wish to view animals, let it be from a safe distance where animals are in their natural environments behaving as they naturally would.

All animals held in man made confinements for entertainment should be released back into the wild where possible terrestrial/ oceanic or given a safe and caring sanctuary environment to live out their days in,. Let humans clowns entertain humans, there certainly is enough of them out there.
