**INQUIRY INTO THE IMPLEMENTATION OF THE
RECOMMENDATIONS CONTAINED IN THE NSW CHIEF
SCIENTIST'S INDEPENDENT REVIEW OF COAL SEAM
GAS ACTIVITIES IN NEW SOUTH WALES**

Name: Miss Suzie Palmer
Date Received: 12 November 2019

New South Wales is on fire! It is far beyond time to invest in exploring and adopting the practice of beneficial renewable energy sources. Coal seam mining is the way of the past.

I implore that the Chief scientist's recommendations be fully implemented. All gas field exploration and development must cease.

Thank you on behalf of so countless many...

Suzie Palmer
