INQUIRY INTO ANIMAL CRUELTY LAWS IN NEW SOUTH WALES

Name: Ms Trish Haywood

Date Received: 16 November 2019

The mark of a nation's evolution is in its treatment of the vulnerable. As a community we will no longer accept animal cruelty as the norm and we demand government act with moral correctness about this subject. As a family we will only vote for a political party that is acting for the welfare of our most vulnerable, be they human or any other being dependent on this land.
