INQUIRY INTO ANIMAL CRUELTY LAWS IN NEW SOUTH WALES

Name: Ms Kamilla Borzeta

Date Received: 28 November 2019

To Members of Parliament,

I am lodging the submission to provide better protections for animals in Australia.

I am in no way connected to raising or looking after animals or affiliated with animal party. Level of cruelty that main media reports is much too great to tolerate in progressive, humanistic society. I strongly oppose any cruelty acts against animals which are ingrained in meat and dairy industries and on the farms.

We need to help animals to live their lives without pain, fear and brutality from humans.

There are many who know exactly how and what to do, they will suggest legal changes. Listen to them, please.

Kindest regards,
Kamilla Borzeta
