To whom it may concern,

I am proud to support circuses with performing animals as I know first hand that they are treated well and cared for. There are laws already in place to protect these animals and Australian circuses go above the standards to provide their animals with exceptional care. The NSW government need to stand their ground against the misinformed people that are seeking to end animals in circuses, because if these people actually took the time to do their research and gather information from the circuses themselves (who welcome any person willing to be educated) they would see how well cared for and happy these animals are.

Sincerely

Atiana Lopez
