

**INQUIRY INTO COSTS FOR REMEDIATION OF SITES
CONTAINING COAL ASH REPOSITORIES**

Name: Name suppressed

Date Received: 13 February 2020

Partially
Confidential

We have already lost an excellent training facility at Myuna Bay due to the Erraring ash dam. To add insult to injury Origin has sought and gained permission to extend the existing and construct a second dam on site. The dam at Newvale has no lining to prevent seepage and the clay used at Erraring would be useless in the earthquake scenario used to shut Myuna Bay Sport & Rec site. There needs to be legislation to protect the local residents, so that we can easily obtain information re health threats from seepage and dust. The Ash should be contained under conditions of best practice at cost to origin and origin should be responsible for the removal or burial of the ash when the Station closes again to a level of best practice.
