

**Submission  
No 13**

**INQUIRY INTO GOVERNMENT'S MANAGEMENT OF THE  
POWERHOUSE MUSEUM AND OTHER MUSEUMS AND  
CULTURAL PROJECTS IN NEW SOUTH WALES**

**Name:** Mr Johan Hagedoorn

**Date Received:** 16 April 2020

---

Vandalizing the existing Powerhouse museum is an outright scandal which has to be stopped at all cost. Apart from the proposed building looking awful, it has less than half the space for exhibits and it will be impossible to create a background for the valuable items such as the train set, complete with signal box, the working steam engine with the typical smell of steam and hot oil and not to forget the valuable aircraft like the Catalina flying boat. On top of this vandalism to demolish historical properties like Georges Terraces and Willow tree..... just thinking about it should get you into jail !!!
