**INQUIRY INTO ANTI-DISCRIMINATION AMENDMENT
(COMPLAINT HANDLING) BILL 2020**

Name: Mr Warwick Robertson

Date Received: 24 April 2020

To the NSW parliament and the people of NSW, I submit that reforms proposed by Mark Latham are urgent and necessary given the substantial abuse of tax payer funds being spent supporting the actions of "lawfare" and "serial pests" such as Mr Garry Burns. This particular individual has made no secret of his very public crusade to victimize his ideological enemies with actions that have repeatedly been proven to have no merit. Yet this repeat offender has continued to garner support over a long period of time by government employees at the cost of taxpayers to perpetuate a form of abuse.
