**INQUIRY INTO ANTI-DISCRIMINATION AMENDMENT
(COMPLAINT HANDLING) BILL 2020**

Name: Mr Ernest Mitchell

Date Received: 24 April 2020

to the Committee,

I would like to ask you to take these amendments seriously. They have been written because there is serious harassment being carried out on Australian citizens through the agency of the NSW Anti discrimination Act as it now stands. These amendments have been introduced to protect people from vexatious claims, of which there have been a large number. These amendments have been introduced to make the Anti discrimination process fairer to all Australians, and there are a large number of Australians who are really over the way the commission is being used to beat up people with differing viewpoints. The tax burden placed on ordinary Australians could be used for much more worthwhile projects.

Thank you

Ernie Mitchell
