

**INQUIRY INTO ANTI-DISCRIMINATION AMENDMENT
(COMPLAINT HANDLING) BILL 2020**

Name: Name suppressed

Date Received: 24 April 2020

Partially
Confidential

I have followed with some interest the recent activities involving the NSW anti-discrimination board and certain individuals in particular. I believe that many of the complaints have been intended for the harm of other individuals and do not serve the public interest. I am of the opinion that the bill submitted by Mark Latham in this regard should be passed in order to ensure that such complaints will be exposed and weeded out so as to preserve the intent of the justice system in providing a vehicle for the pursuit of legitimate complaints only. I do not believe that complaints lodged against persons from outside of the state of NSW should be the subject of complaints within the NSW anti discrimination board.
