Bernard Gaynor & his family have suffered enormous physical, financial, & dreadful trauma, all because of ridiculous laws, and a man who quite obviously had ties with people in "high places!?" I remember when residing in Canberra in the mid 70's, the "high court judges" lived in the prestigious suburbs, & our taxes paid for 24/7 surveillance plus a guard on duty at the gatehouse!? I used to think..."they would never be 'in touch' with the real society, when living like this!?" How could they possibly make laws to meet the average citizen's life? How many of them would refer to our Scriptures for guidance? I REST, MY CASE, Your Honour!?
