Dear NSW Parliament,

Please pass Mark Latham's bill that reforms the NSW Anti-Discrimination Board to reject vexatious and frivolous complaints, and to reject complaints against people with brain damage.

As pointed out by Mark Latham himself in his speech (<https://www.parliament.nsw.gov.au/Hansard/Pages/HansardFull.aspx#/DateDisplay/HANSARD-1820781676-81469/HANSARD-1820781676-81481>) the NSW ADB seems to have gone out of control, with the way it regularly and questioningly accepts complaints from serial litigant Garry Burns against people who are brain damaged, live outside of NSW, and those who are exempt from the NSW Anti-Discrimination Act. This is tantamount to abuse of power, not to mention a waste of much public resources and must stop.

Please pass Mark Latham's bill.
