**INQUIRY INTO ANTI-DISCRIMINATION AMENDMENT  
(COMPLAINT HANDLING) BILL 2020**

I support Mark Latham's Bill that would ensure that the NSW Anti-Discrimination Board: - reject vexatious and frivolous complaints; and - reject complaints against people with brain damage. Furthermore, I support it because it clarifies that the ADB has no power over people who do not live in New South Wales and seeks to close a loophole that allows vexatious complainants to bring matters to the New South Wales Civil and Administrative Tribunal, even if they have been rejected.
