One state should NOT undermine the authority of another One person who continually brings AD cases to the AD Tribunal should be investigated,

The \$ involved in hearing some outrageous claims of AD by the SAME person needs to be questioned.

Having a high public profile should not make it easier for a person to be able to ward off AD claims

A sense of fair play needs to be in place.

The AD Tribunal appears to exist and thrive on the cases of the same vexatious people.

This is un Australian.

Change the law and bring back equity and fair play.
