WEAPONS LEGISLATION (CRIMINAL USE) BILL 2020**

It is to my understanding based on what I've read of this bill that what you are doing is an act of not just Irresponsibility, but blatant and remarkable stupidity. What you are doing is going to have a blatant impact on people as a whole and not help anyone in the slightest.

As your new bill states, one may not have in their possession a "weapon, weapons part, or plans." Knowing how your government and the government as a whole as Australia is right now, doing such a thing can and will be abused in such a way that it will heavily impact innocent and otherwise good people. What's to stop this being abused and being used as a weapon to attack those that are merely making parts for toys like gel blasters.

What if someone just desires to make a model of a weapon that simply has no working parts so that it may be used in such a way that a real gun may be used. Your government and your little army of thugs acting under the colors of law and regulation is slowly and disgustingly chipping away at the freedoms of the Australian people with your corruption. What this bill will only effectively do is put harmless and lawful people behind bars or hit with disgusting and unnecessary fines, and you as a government deserve to feel ashamed and pay for these attacks upon the people of NSW and Australia as a whole. This is a blatant power play. Onto another matter while I am here. The weapons act of 1996. That was a travesty unto itself, and should never have been made. Because of the actions of one mentally unwell person who wasn't even licensed if I read the correct material, you essentially lynched and backhanded every single Peaceful and lawful gun owner in Australia.

This is not just a message to NSW, but the Entire Government. You are nothing but a joke, and the day when you see that will not be soon enough. You have essentially turned an entire community of peaceful people into criminals, destroyed a good way to help fix Australia's ecosystem, letting hundreds of species die out because of your negligence which is criminal enough in and of itself. Australians need these tools to help get rid of feral and pest populations that your governments brought into our country in the first place. If anyone should be disarmed it should be you, not the people that you are supposed to serve and act in the best interests of. All you've done is make this country into a joke, a punch line for other nations insults.

We aren't a country to be proud of, we don't deserve the right to this land. You above all else have no right to dictate what people may own or how they wish to act. You deny people the right to freedoms that other nations enjoy. You lock up innocent people that only wish to defend themselves, their families, and/or their properties, and this is disgusting. If I haven't made this clear enough yet. You are a joke, and I hope one day that this nation will grow beyond this and become great... but not while government is as it is now. If you want what's best for the country. Get out.
