**INQUIRY INTO ANTI-DISCRIMINATION AMENDMENT
(COMPLAINT HANDLING) BILL 2020**

Name: Name suppressed

Date Received: 26 April 2020

Partially
Confidential

From what have gathered over the years have read Bernard Gaynor's experience, it has been puzzling to see how Gary Burns has been allowed to file one complaint after another, regardless of Mr Gaynor's personal situation, financially (having lost his homes and finances), being reduced to being almost constantly preoccupied with this person, having to face extremely difficult legal situations non-stop and at the same time not being able to present information showing Mr Burns hatred of him in written form...yet anything Mr Gaynor says or writes apparently warrants legal action.

How come the legal world has been supporting this unjust and unbalanced litigation and never seems to stop or check itself either.

One would have thought that the anti-discrimination board would have had a more balanced view and ignoring previous High Court decisions seems quite odd as well.

It looks like the courts fully support Gary Burns objective to totally destroy Mr. Gaynor.
