To whom it may concern,

I support Mark Latham's bill regarding the NSW Anti-Discrimination Board to reject vexatious and frivolous complaints and reject complaints against people with brain damage. These constant abuses from the ADB only waste tax payer money, waste court time, prevent more serious case been heard sooner and are harassment to mentally challenged individuals. It causees unnecessary to stress to individuals with minor offenses lodged by the ADB. The ADB is now abusing power and allowing serial litigators like Gary Burns to make claims against anyone who he deems "offensive".

These abuses of power must end.
