

**INQUIRY INTO PROVISIONS OF THE FIREARMS AND  
WEAPONS LEGISLATION (CRIMINAL USE) BILL 2020**

**Name:** Mr Shaun Norrington

**Date Received:** 12 May 2020

---

There are some regular cleaning and maintenance areas of owning a firearm that should remain as part of the owners responsibility as having to take it to a gunsmith for a clean would be unviable in some areas. Also equipment to manufacture firearm parts is a very broad term as a welder hammer and file can be used to manufacture firearms and they can be found in over 90% of Australian households.
