

**INQUIRY INTO PROVISIONS OF THE FIREARMS AND  
WEAPONS LEGISLATION (CRIMINAL USE) BILL 2020**

**Name:** Mr Andrew White

**Date Received:** 13 May 2020

---

Hello, There is already very strict guidelines with manufacture of controlled firearm parts and big penalties. The proposed bill is very very grey in definition and would allow law abiding firearms owners to fall foul of the law for making minor modifications (customising) their firearms. The amendment needs a very clear line. The manufacture of receivers and barrels should be illegal unless you are authorised. Thats it. If you don't have either of these it isn't a firearm.
