**INQUIRY INTO GOVERNMENT'S MANAGEMENT OF THE
POWERHOUSE MUSEUM AND OTHER MUSEUMS AND
CULTURAL PROJECTS IN NEW SOUTH WALES**

Name: Mr Hamish Thompson

Date Received: 17 May 2020

The powerhouse should remain in ultimo and Parramatta get it's own museum.

The proposed location for the Parramatta powerhouse is flood prone and results in the loss of heritage. An alternate location should be found. The design is ugly and too small to hold the articles that are at the ultimo site. The combined loss of heritage in Parramatta at the hands of development is too big. Knocking down heritage buildings to build a museum that preserves historic items is ridiculous.
