

**INQUIRY INTO OPERATION OF THE POINT TO POINT
TRANSPORT (TAXIS AND HIRE VEHICLES) ACT 2016**

Name: Name suppressed

Date Received: 31 May 2020

Partially
Confidential

My family and I purchased a Taxi licence with money saved over a number of years. We were informed by persons who had a licence that it was a good investment with a good return and good growth.

We are a hard working proud Australian tax paying family who had confidence in the NSW Government's intention or capacity to enforce Regulations that protected these licences and their own interest.

We have lost a serious amount of rent and have a licence that may be difficult to sell due the loss of confidence of the public.

I believe that the government should consider as a first preference to use these licences perhaps in another capacity in the future for taxi drones which is what UBER is proposing.

I hope the Government doesn't roll over and allow these companies to use our sky without regulation.
