TO WHOM IT MAY CONCERN

The damage is done by UBER. sometimes uber passengers dont get service. They call taxi. When I arrived there, they have got what they usually pay. let say \$15.00. I left Mount Druitt station to go and do the job. desperate I take them, and get \$15.

Point to Point system is just there. Income has dropped. even if the Govt decide to buy back plates, is it gonna be the \$400,000 mark. we worked very hard to maintain an investment. if gonna be less, then its not Justice, But Jekeusy not thinking about us.

The Best solution is Point to Point Transport to abolished Uber. They we will be winners

Thanking you
