

**INQUIRY INTO PROVISIONS OF THE FIREARMS AND
WEAPONS LEGISLATION (CRIMINAL USE) BILL 2020**

Name: Mr Lewis Clarke

Date Received: 16 June 2020

It would be greatly appreciated if air and spring powered pistols/short arms could be obtained with an A or B licence and not need the same requirements and restrictions as powder operated pistols/short arms. The existing restrictions on spring and air powered pistols/short arms is silly and is similar to not allowing a licenced motorcycle rider from operating a mobility scooter without first undertaking training and licencing suited towards operating supersonic aircraft.
