## **INQUIRY INTO REVIEW OF THE NEW SOUTH WALES SCHOOL CURRICULUM**

**Name:** Mr Stephen Wellings

**Date Received:** 30 June 2020

---

Simply put I served in the military for 39 years and recently retired to homeschool 2/4 children. My eldest daughter is undertaking studies at University in the USA. I retired specifically because of my disillusionment in the public schooling system and more specifically the National curriculum being taught. Postmodernism and contemporary revisionism predominantly across humanities has infected the learning outcomes adversely for our children. In short, the national curriculum now spruiks hatred and white/Christian racism/marginalization which goes against everything I was ever taught both in the schooling system and the auxiliary arm of learning - at home and also throughout my life in Australian society. Without doubt the biggest single cancer in the schooling system is the various models of the 'safe schools' program!. No way do I want some relative stranger influencing my children with toxic, cancerous and plain wrong teachings of sexuality and the role of the nuclear family as subordinate to the state. Example: The national curriculum (NSW included) teaches our children there are 100s of biological genders. That should ring alarm bells right there and lift my comment from mere opinion to fact-based reform. The public schooling system has lost its way. Rudderless sadly. So much so that as a tertiary qualified engineer in my career prime I felt obligated to ditch my career to get my kids back on the right track all because the public system has become infected with leftist groupthink and sadly I want to let the record show it has become a cancer that someone needs to redress.
