The traditional custodians of this land have been living life in a post-apocalypse enacted on them by a settler government that not only divested all of their rights and land from them, but once returned now throws their people in jail at a rate that is only serving to further decimate their communities. This is totally unacceptable. Indigenous people should not be dying in custody let alone be incarcerated at age 10! Do something about this. It is your moral responsibility to make things right. Please, for the sake of this country's alleged good character at the very least.
