I am a law abiding firearm owner, I am not a criminal however I also like to be able to repair and modify "within the rules" my firearms, I object to the absurd nature of some of the items in this amendment they are completely unreasonable and will work to vilify LAW ABIDING FIREARMS OWNERS.

I am all for measures that are reasonable and practical that will keep firearms in the right hands and get results against those whom are breaking the laws

The unlawful shut down of firearms dealers and ptas during covid was disgusting we are deemed worthy of a firearms possession just by having a licence, however we were targeted by anti gun politicians and law enforcement agencies and lumped in with wife beaters to justify there pathetic actions.

This sort of treatment would not be tolerated against any other minoritys yet look at how we are treated, when the need arises to fight back a foreign power, you will all cry for the lack of defence options for our people this country is becoming soft and Is a juicy target for some
