

**INQUIRY INTO PROVISIONS OF THE FIREARMS AND
WEAPONS LEGISLATION AMENDMENT (CRIMINAL
USE) BILL 2020**

Name: Mr Roger Moore

Date Received: 4 August 2020

I am not completely opposed in regards to making the community safe by keeping check on unlawful behaviour or possession of something that can possibly be a firearm or firearm accessory in the vicinity of known criminals.

As a responsible firearm owner, along with probably 99% of other registered owners who have made a sport, hobby or conservation effort with owning firearms and being apart of legitimate organizations. This proposed bill is not descriptive enough in terms of what constitutes an offence, more so it seems based on police discretion which can be used entirely against a responsible owner who most likely has some kind of fabrication tooling in their own workshop for the purposes of creating something useful for the household or as a hobby in general. The proposal is too loosely worded and sounds unfair to responsible firearm owners
