

**INQUIRY INTO LONG-TERM SUSTAINABILITY OF THE
DAIRY INDUSTRY IN NEW SOUTH WALES**

Name: Name suppressed

Date Received: 11 August 2020

Partially
Confidential

As consumers continue to become more aware of animal suffering (impregnating cows so they produce breast milk, and removing their babies within hours of birth to be killed) and the environmental impacts of this industry (responsible for significant greenhouse gas emissions and it takes 1,020 litres of water to produce just 1 litre of milk), the sales in animal milk products will continue to decline.
