**INQUIRY INTO LONG-TERM SUSTAINABILITY OF THE
DAIRY INDUSTRY IN NEW SOUTH WALES**

Name: Ms Fiona Galloway

Date Received: 11 August 2020

I propose a review into the dairy industry and its horrendous and cruel practices, all in the name to ride humans with a source of milk. The impregnation of cows, deliberately, to induce milk, whereby newborn calves are killed shortly after birth as a result, must cease immediately. If you have any concern for these sentiment beings I urge you to take action.
