

**INQUIRY INTO RATIONALE FOR, AND IMPACTS OF,  
NEW DAMS AND OTHER WATER INFRASTRUCTURE IN  
NSW**

**Name:** Name suppressed  
**Date Received:** 19 September 2020

---

Partially  
Confidential

I request NSW Government give more serious consideration regarding possibility of constructing a new dam, eg Dungowan, and also request the public's ideas and thoughts regarding such cost and development be reviewed:

In contrast with managing the water supply in an approved environmental way and stop the waste. During our lockdown we have not been able to use council water for garden and you will see gardens are still flourishing!!

I am now recycling and also have 2 tanks in other words the public are quite capable of managing their water more responsibly, time we all do this in future.

Please consider improved management, Thank you for your consideration
