**INQUIRY INTO RATIONALE FOR, AND IMPACTS OF,
NEW DAMS AND OTHER WATER INFRASTRUCTURE IN
NSW**

Name: Mrs Linda Said
Date Received: 21 September 2020

I believe that further damage will occur to our river systems if our country doesn't respect our waterways.

I do not support further dams being built for water management and investment into crops that require high water usage in areas that wouldn't otherwise be able to support it. Please stop this destructive

pathway that is unsustainable to us as people and to our economy. Building dams should not be on the agenda today or in the future. It would be wonderful to see the restoration of rivers to their full glory, with the removal of dams. Let our rivers flow naturally.
