**INQUIRY INTO RATIONALE FOR, AND IMPACTS OF,
NEW DAMS AND OTHER WATER INFRASTRUCTURE IN
NSW**

Name: Mr John Simpson
Date Received: 21 September 2020

I would like to see the taxpayers money spent on water efficiency measures rather than a very expensive dam which will only further add to the problems of decreased flows downstream in the Murray Darling River system. This proposed new dam does not make economic or environmental sense. yours sincerely John Simpson
