Confidential

We as Australians need to stop the corruption theft and greed of water being taken, our Darling River system failing more and more each year thanks to you the politicians allowing cotton and almond growers to store way more water than should ever allowed be withholding it regardless that below our Rivers don't run, that destroys so many livelihoods and generational farmers who have always been so conservative and respectful of the water that flows past there properties. We can not afford any more dams, it's bad enough that these multi million dollar farmers are allowed which is a crime in itself as we will have no water soon. Australia is one of the most arid countries and we allow cotton and almond farmers which are the 2 highest water users. Wake up because if you don't you will be destroying our children's futures and beyond.
