**INQUIRY INTO RATIONALE FOR, AND IMPACTS OF,
NEW DAMS AND OTHER WATER INFRASTRUCTURE IN
NSW**

Name: Ms Stephanie Canaway

Date Received: 22 September 2020

For the health of our country the rivers need to flow, we have bought into short sightedness and profit for far too long. We have ignored our indigenous people who have survived on this land for over 60000 years. It's time to look at what is fueling any intentions for these decisions and are they based in any fear lack ignorance or greed. Are they based on biased influence from outside sources and selfish control ? We can no longer afford the luxury of ignorance and complacency our future depends on it.
