

**Submission  
No 49**

**INQUIRY INTO HEALTH OUTCOMES AND ACCESS TO  
HEALTH AND HOSPITAL SERVICES IN RURAL,  
REGIONAL AND REMOTE NEW SOUTH WALES**

**Name:** Mrs Belinda Perrett  
**Date Received:** 23 November 2020

---

Can you ask MLHD when will the Deniliquin Hospital be able to use thrombolysis treatment for stroke victims. Currently these victims are sent out of town, by ambulance, over one and a half hours away. This obviously impacts the final outcomes because of the lengthy delay in treatment and the additional stress on the victims and their families. A new CT Scanner has arrived and should now be operational.
